## Experience

### Legal Templates

Remote, U.S.A

#### Senior Ui/Ux Designer

Sept 2023 - Present

- Designed a logic and pattern system for applying colors to a **SAAS platform**, enhancing visual consistency
- Conducted research and developed low-fidelity wireframes and high-fidelity designs for various **AI SaaS products**.
- Collaborated with the product manager to evaluate products and improve **conversion rates (CVR)**.
- **Partnered with developers to test staging web apps**, identifying bugs and refining the overall user experience flow.

### Dtail Studio

Remote, Spain

#### Junior Product Designer

Jul 2022 - 2023

- Developed wireframes, hi-fi designs, and working prototypes for clients
- Collaborated with other designers to redesign the Agency's website including responsive screens
- Collaborated with teammates to meet product goals and deadlines
- **Worked closely with the product managers** and developers on most projects

### Copnow

Remote, Nigeria

#### Junior Product Designer

Apr 2021 - 2023

- Analysed interface design concept with team leads while analysing the user experience for customers
- Designed wireframes, interactive prototypes and other design documentation, communicating ideas for better accessibility
- Prepared and presented drafts to Product managers and other stakeholders

### Wisewerx

Remote, Poland

#### Design Intern

Jan 2021 - Mar 2021

- Led the redesign of the website by creating and implementing working strategies and plans
- Ran usability testing and hi-fi prototype based on feedback received
